
LA VENDIMIA

Youth, freshness, refinement.

The newest vines and an age-old alliance with three other families that contribute their product combine to create this young red wine which reclaims an old Rioja tradition.

“Second-year wine” is a classic concept used to explain that if the young wine is good, the following year it will be even better. This is what **La Vendimia** offers: a full-bodied, refreshing red wine, lively and versatile; stimulating, profound and with a certain tannic strength.

Its personality lies in its origins. Grenache and Tempranillo in equal parts give it that special scope, which is both flighty and well defined at the same time. Meanwhile, its brief stay in oak vats and casks assembles its body and adds complexity.
